For the past 14 years, I have been busy with raising my children. Now that they are older and more independent, I would like to be more involved in serving my community. I believe that the library board would be a good fit for me. I have been visiting the Buda library on an almost weekly basis for over 12 years. I have read hundreds (thousands??) of hours worth of children's, young adult, and adult books—both fiction and non-fiction.

Each summer my children participate in the summer reading programs and children's classes offered through the library. I would like the opportunity to serve and give back to an organization that has benefited my family. I would also like to be more involved in the decision making process concerning the programs and materials available at the library.

I believe that the library can be the heart of a community. It is one of the few physical gathering places left in our communities. But it is more than just a physical building filled with books. It is a gateway to lifelong learning. Especially during difficult economic times, the library becomes an invaluable community resource. It provides the means to an education that may otherwise be unattainable.

I may not have a lot of qualifications or expertise when it comes to serving on the library board, but I am passionate about the importance of the library to our community. I am willing to put in the time and effort necessary to do a good job in serving the Buda library.

Describe any qualifications, expertise, or special interests that relate to your possible appointment, and why you would wish to serve:

I have served on the Library Commission for two terms and would like to serve another term. During that time I served on the committee that developed the Long Range Plan for the Buda Library. I have also worked as a liaison for the Library to the business community. I feel our Library is a vital resource for our community and serves a wide range services with its exceptional staff and computers and multiple resources. The summer reading program is a fantastic example of this. Thanks for considering me for appointment to the Library Commission.

Describe any qualifications, expertise, or special interests that relate to your possible appointment, and why you would wish to serve:

I have been on the Library Commission for the past two years. In those two years, I have learned many skills that will help me - I have learned to see both sides of an issue and weigh pros and cons to make the best decision, I have learned to take everyone's point of view, and I have learned to come to a conclusion with both of those tools. As a Buda Public Library Volunteer, Library Commissioner, and Buda resident, I hope to continue in giving back to the community.
