## **MAIN STREET AND OLD SAN ANTONIO ROAD CONSTRUCTION/TRAFFIC CONTROL**

**BUDA - July 12, 2019** - Hays County's road improvement bond contractor and CenterPoint Energy will begin utility construction within the intersection of Main Street and Old San Antonio Road starting the week of July 14. Work to install new potable water and natural gas transmission mains by underground boring will last approximately four weeks. This utility construction will intermittently disrupt traffic and narrow traffic into single lanes at the southern half of the intersection in all directions of traffic flow. Old San Antonio Road will continue to be north-bound only until the Hays County road improvement project is complete in October. Please be aware of the traffic signage, road flagmen, contractor equipment, and law enforcement present to aid in the flow and control of vehicles and pedestrians. The purpose of the project is to install in-ground utilities and infrastructure for the new Buda Elementary School on Old San Antonio Road.
